

DETAILED ACTION

Allowable Subject Matter

1. Claims 1-32 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter.

Claim 1 recites, inter alia, a method for providing copies of data comprising “pairing the first and second storage devices”, “adding the pair, by information other than first device identifiers, to a copy group already containing another storage device pair”, and “cross-referencing the copy group identifier and the first device identifiers of the pair”. Prior art of record do not teach or suggest, either alone or in combination, the aforementioned limitation, nor would it be obvious to modify those references to include such limitation. Examiner notes that applicant’s arguments are persuasive regarding the above limitations. Examiner further notes that applicant’s arguments are persuasive regarding the 101 rejection.
